

Price List 2003

Maple Syrup

Analysers

C 219 - C 220

Light transmittance analyser for maple syrup.
C 219 english version
C 220 french version

\$ 989.00

MAL 100

Rugged, foam lined, transport case for the C 219 / C 220 analysers.

\$ 120.00

C 219 - C 220 kit

Analysis kit for maple syrup, complete with 30 ml of glycerine, 82 cells, plus 2 x 5 ml syringes. (Average 80 tests per kit)

\$ 34.00

HI 95759 - 95760

Light transmittance analyser portable for maple syrup.
HI 95759 english version
HI 95760 french version

\$ 450.00

Conductivity Meters

HI 98308 - PWT

Conductivity tester 0-100 μ S.
Easy to use.

\$ 76.00

HI 7033L - 7031L

Buffer solution for electrical conductivity
HI 7033L - 84 μ S
HI 7031L - 1413 μ S

\$ 14.00

HI 9033W

Professional conductivity meter.
Waterproof, multi-range.
Probe & cable 1 m.

\$ 689.00

HI 98311 - DIST 5

Conductivity tester 0-3999 μ S.
Waterproof with automatic calibration.

\$ 117.00

Thermometers

HI 935005D

Thermocouple type thermometer with non-detachable 5 inch probe and protective orange rubber boot.

\$ 189.00

HI 935005S

Thermocouple type thermometer with 18 inch adjustable probe and protective orange rubber boot. Designed for many types of boilers and cookers.

\$ 288.00

HI 9053 - HI 9055

Thermocouple thermometer with built-in audible alarm. Works with K-type thermocouple probes.

HI 9053 °C version

HI 9055 °F version

\$ 175.00

HI 766SPEA

18 inch K-type thermocouple probe. Complete with adjustable bracket to fit many type of boilers and cookers. Ideal to use with HI 9053/9055/935005S.

\$ 159.00

HI 710010

Impact absorbing, rubber boot for HI 9053 - HI 9055.

\$ 43.00

HI 98509 - HI 98510

High precision portable thermometer with automatic calibration check.

HI 98509 °C version

HI 98510 °F version

\$ 46.00

HI 98527 - HI 98529

Precision pocket thermometer with calibration check.

HI 98527 °C version

HI 98529 °F version

\$ 83.00

HI 935005

Thermocouple type thermometer with non-detachable 5 inch probe and protective orange rubber boot.

\$ 196.00
